REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims as supported by the specification differs from the prior art in that it does not teach a method of assembling a combustor liner whereby a laser beam joins the annular bands which are concurrently rotated and the entire circumference of the joint area is exposed; and then directing the laser beam a second time on the joint area to form at least a partially overlapping second weld bead.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
